Margaret, Nottingham

'We would highly recommend Mascari! Alistair our kitchen fitter was really friendly and his standard of work was excellent!'

Hannah, West Bridgford

"I cannot recommend Mascari Design highly enough. We had our kitchen and living room re-designed and built with them in 2020 (it's still looking as good as new) and more recently we have had a new bathroom with Mascari. The design process with Rob and Sam is very interactive - they provide their expertise and creativity, and we were able to input with our ideas and specific requirements. Ali, who built both the kitchen and bathroom to an incredibly high standard, was very professional and considerate, considering we carried on living in our apartment as the work was being carried out. We were so pleased to have found this local family business to undertake the work for us."
